

## Pinworm (LTR81896)

Last Approved Time: 10/11/2023

Revision: 2.50

Specimen will **not** be tested if label or requisition is missing information.

Please follow the instructions below for accurate test results.

---

The best time to collect the specimen is early in the morning **before** having a bowel movement (poo).  
Do **not** wash or wipe the rectal area before collection.

---

Make sure the container is labeled with **all** of the following:

- Full first and last name
- Healthcare number
- Date and time of collection

|   |
|---|
| John Doe<br>12345 6700<br>Date Jan 3<br>Time 9:00am |
|---|

---

Unscrew the lid. The paddle is attached.

One side is labeled 'sticky side'.

Do **not** touch with fingers.

---

Using moderate pressure, press the sticky side of paddle to the skin close to anus.

---

Put the lid on the container and close tightly.

---

Put the specimen container in the section of the bag that closes and close the ziplock.

Wash your hands with soap and water.

---

Put the requisition in the outer pocket of the bag.

---

Take the specimen and the requisition to the laboratory today and as soon as possible.

---
